Data Analyst & Engineer · NLP · Automated Pipelines · Analytics for Financial Services

EXPERIENCE

PT FedEx Express International | Operations Intern

Jun 2026 – August 2026

- Built a Power BI dashboard to track partner performance across APAC, enhancing regional data visibility.
- Automated contra settlement workflows using Microsoft Power Platform, saving ~20 hours/month.
- Drafted PRDs and facilitated sprints to identify process gaps and deploy automation solutions.
- Collaborated with APAC stakeholders to align operational workflows and evaluate performance metrics.

PT Reasuransi Nasional Indonesia | Data Analyst Intern

Dec 2025 – May 2026

- Architected a data pipeline from warehouse to reporting mart, cutting manual prep time by 50%.
- Built a Python risk-scoring model for 50+ ceding companies using financials and news sentiment.
- Designed 3 Power BI dashboards tracking premiums, claims, and profitability for executives.
- Wrote recurring reports for 8+ business classes, eliminating ~5 hours of manual analysis per week.

Magpie (Singapore/Remote) | Data Quality Assurance Freelance

Sep 2025 – Nov 2025

- Audited 5,000+ records across multiple datasets, hitting 99% accuracy for analytics and ML pipelines.
- Cut data labeling turnaround by ~25% by restructuring annotation workflows across 2 ML projects.

Universitas Indonesia | Research & Teaching Assistant

Jul 2024 – Present

- Research Assistant: Conducted research on environmental remote sensing at the Machine Learning and Computer Vision (MLCV) Lab, focusing on analyzing spatial data to identify ecological patterns.
- Teaching Assistant: Supported instruction across 4 courses: AI & Data Science, Platform-Based Programming, Data Structures & Algorithms, and Programming Foundations — running lab sessions and grading 100+ assignments weekly.

EDUCATION

Universitas Indonesia (UI)

Aug 2023 – Present

Bachelor of Information Systems – GPA 3.96 of 4.00

- 3rd Place – Falcon Project X Qatar Airways AI Infographic Competition (2024)
- Finalist – Business Case BASIC Binus (2024)
- Guest Speaker, Data Science & Analytics – Google Developer Groups on Campus UI (2026)

National University of Singapore (NUS)

Jun 2026 – Jul 2026

Young Fellowship Programme – AI and Graduate Research

- Selected for a highly competitive fellowship, with an intended research focus on Data-Centric AI, data quality frameworks, and advanced implementations in robust systems.

PROJECTS

Lexical Mutation Analysis: Mapping Public Discourse on X and YouTube

Paper ↗

Engineered a Multi-layered Hybrid Analytical Framework to analyze 35,000+ data entries from X and YouTube using Python and NLP. Developed a Lexical Mutation Clustering model utilizing E5-small embeddings and fine-tuned IndoBERTweet transformers, achieving up to 85.90% classification accuracy.

Insight: Sales Analytics Dashboard

Dashboard Repo ↗

Designed a sales analytics dashboard using Power BI and SQL to consolidate multi-source transactional data. Utilized DAX to calculate key KPIs (Profit Margin, AOV) and performed RFM analysis to drive targeted marketing strategies.

Qatar Airways Infographic

Infographic ↗

Conducted customer segmentation using K-Means and sentiment analysis (AFINN) to forecast satisfaction trends (Exponential Smoothing), formulating data-driven strategies to enhance service quality and customer loyalty.

SDC Infographic

Infographic ↗

Analyzed CPI food commodity data using EDA, STL decomposition, and LightGBM forecasting to support inflation targeting, delivering visualization-based insights to inform monetary policy decisions.

CERTIFICATIONS

Associate Data Engineer in SQL

Mar 2025

DataCamp | Certificate Link ↗

- Mastered advanced relational database concepts (Joins, CTEs, Window Functions) and designed EERD schemas for complex data pipelines, ensuring scalable and efficient query performance.

SQL (Advanced)

Jan 2026

HackerRank | Certificate Link ↗

- Proficient in Query Optimization, Indexing, and Data Modeling (EERD); specialized in complex transformations using Window Functions, CTEs, and Dynamic Pivots.

English Proficiency Test

Sep 2023

LBI UI | Score: A (610/670) | Advanced working proficiency.

SKILLS

- Languages:** Python, SQL
- Data, ML & NLP:** Pandas, NumPy, Scikit-learn, Beautiful Soup, E5-small, IndoBERTweet
- Databases, Warehouses & Tools:** PostgreSQL, Snowflake, DBeaver, PL/SQL, AWS (S3), GCP (BigQuery)
- BI & Visualization:** Power BI, Tableau, Looker, Metabase, Excel
- Pipeline & Infrastructure:** Apache Airflow, Prefect, Docker, Git, GitHub
- Business Process Automation:** Power Apps, Power Automate, SharePoint

LEADERSHIP & COMMUNITY

COMPFEST | Person In Charge of Data Analytics Dash Competition

Jan 2025 – Nov 2025

- Orchestrated a national-scale competition for 300+ teams, designing technical problem statements using SQL and Tableau to simulate real-world analytics challenges.
- Managed stakeholder communication and analyzed participant feedback to drive continuous improvement for future iterations.

RISTEK Fasilkom UI | People Operations Associate

Mar 2024 – Jan 2025

- Managed recruitment, onboarding, and internal engagement initiatives to enhance organizational culture.

GAUNG Fasilkom UI 2023 | Person In Charge of Academic Division

Jan 2024 – Present

- Facilitated academic advocacy and bridged communication between faculty and 400+ students to ensure curriculum alignment.
